# NEW IN QUICK3DPLAN 5!

Interface

Tabs: The new Quick3DPlan® includes an updated interface with tabs that show all the available options for architecture, furnishing, views… reducing the number of mouse clicks. .

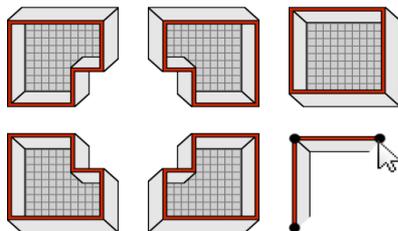

Files: With only one click you have access to the last projects and the security copy that Quick3DPlan saves in case the program closes down unexpectedly.

Print: Quick3DPlan® includes a new print preview window for images and reports. You can enter your company name, company logo and page footer.

Architecture

Draw room: A new dialog where you can select your room layout among five options or you can draw the room manually by clicking on the screen.

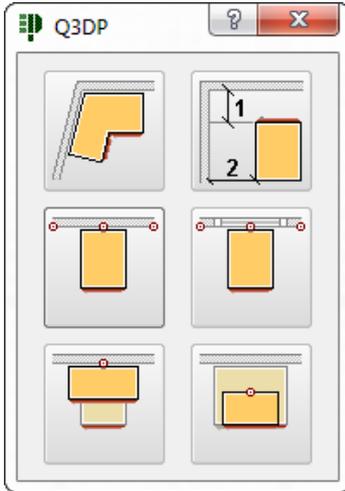

Move pillar: You can move the pillars of the kitchen accurately by entering the distance with the keyboard.
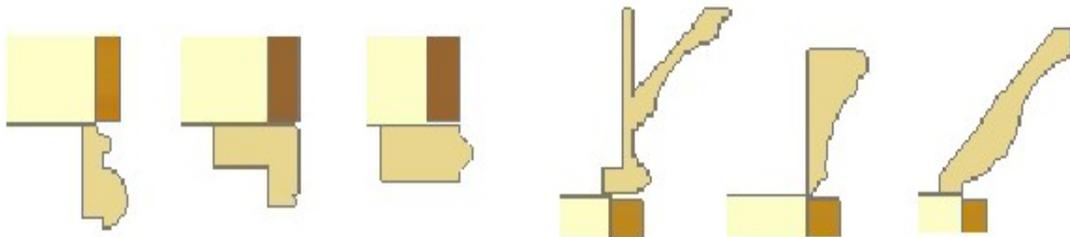

Furnishing

Insertion options: New special insertion options that allow you to insert a cabinet easily and accurately in the following cases:
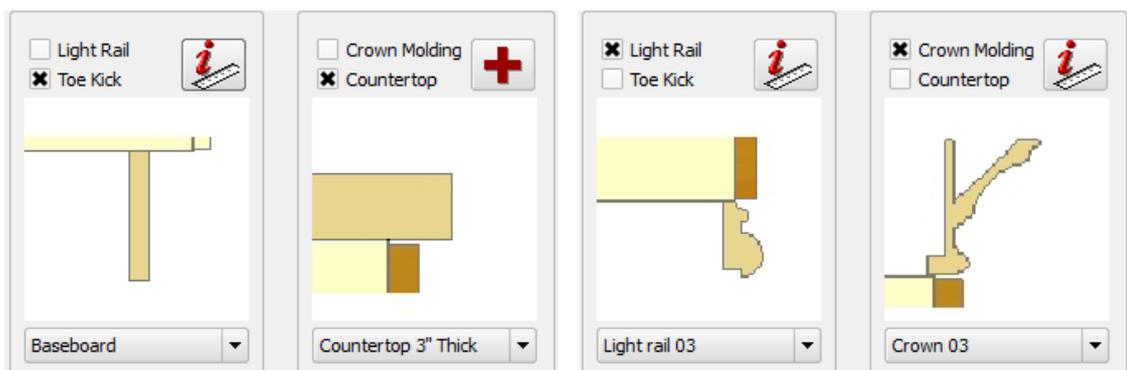

- Corner cabinet insertion adjusted to the wall corner angle.

- Insert island cabinet at a specified distance from two selected walls.

- Insert cabinet centered on a selected wall.

- Insert cabinet centered on a selected window.

- Insert cabinet centered on another selected cabinet aligned on the back.

- Insert cabinet centered on another selected cabinet aligned on the front.

Change molding model: You can change the crown molding and light rail model for a selected cabinet or for all the cabinets in the design. There are 6 new light rail models and 8 new crown molding models.+
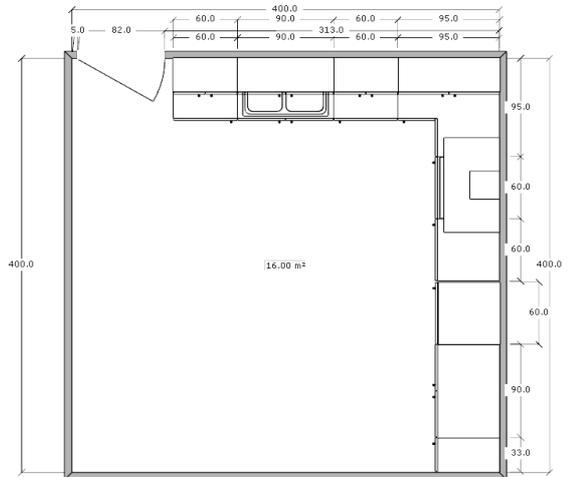

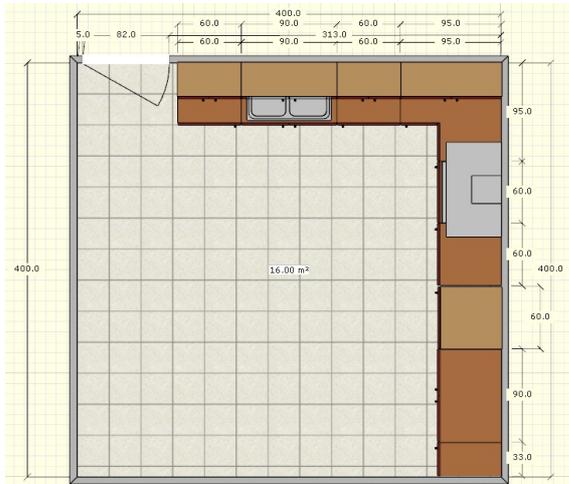

Change molding height. You can modify the height of the baseboard, crown molding, light rail and backsplash and the countertop thickness for a selected cabinet or for all cabinets in the design.

2D

2D colors: You can chose between white or cream color for the background. You can also print your floor plans in black and white or solid colors.

3D

Enhanced image quality: The 3D view shows the shadows generated by the inserted items. The quality of doors, handles and accessories has been improved. Materials have also been updated.

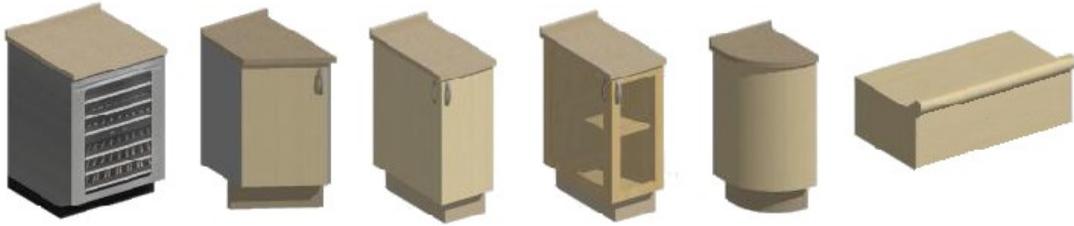

Shadow intensity: New tool to modify shadow intensity to make it darker or lighter. Changes are instantly shown on the screen and you can see how shadows change while moving a light.

Catalogs

New catalog in mm: Apart from centimeters and inches you can now also design in millimeters with a European style catalog.

Cabinet catalog update: The American (inches) and European (mm and cm) catalogs have been updated with cabinets requested by our customers: new base cabinet with a wine cooler or small fridge, end cabinets with two doors, curved end cabinet, soffit…

Accessory catalog update: New tables, chairs, stools, glassware, jars, crockery…
